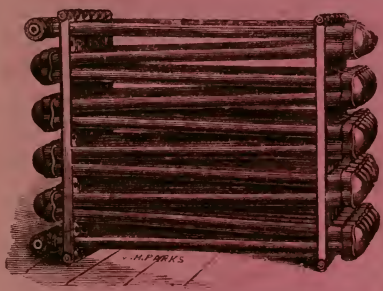
ENGINEERS,

And Manufacturers of High and Low Pressure

Steam Heating Apparatus



FOR

PUBLIC AND PRIVATE

BUILDINGS.

SPECIAL ATTENTION GIVEN TO

Heating Factories

BY

EXHAUST STEAM.

We are prepared to contract for warming and ventilating by STEAM, Public or Private buildings of any size or construction, either by DIRECT or INDIRECT radiation, high or low pressure.

By the first method, we place coils or radiators in the various rooms, and convey the steam to them through mains properly run and connected. The coils can be protected if required, with ornamental screens and marble tops.

By the second method, the coils are placed in chambers in the basement and convey the heat through flues to the different rooms above. For return circulating heating work, which is now adopted by nearly all the principal houses engaged in heating, our IMPROVED VERTICAL TUBE COIL, is the best that has been tried, it works equally well with high or low pressure, without noise, and contains more heating surface in less space, besides being highly ornamental.

For buildings in which they have been successfully used, we refer to the following:

THE PARLOR SUN,

AND LIGHTNING HEATER.

In quality of material, style of finish, economy of wear and fuel, power of heating, ease of management, and in beauty, *superior to any other Fire Place Heater.* The Grate is a shaking and dumping one, with a milled edge, which cleans the entire surface of the fire. These Fire Place Heaters are a miniature furnace, to be set in the wall same as a grate, either with or without a mantle, to warm the rooms above as well as that in which it stands. They are self-feeding and illuminating, and have the cheerful appearance of the low-down grate. We guarantee them to give entire satisfaction.

The Celebrated Wrought Iron Gold Medal Furnace.

Our Patented Partitioned Dome and Deflecting Drums equalize the heat over all the surface, and afford opportunity to readily clean the furnaces without removing the castings or brick work. The grate is anti-clinker, and is both revolving and shaking. These furnaces are guaranteed to wear longer and to require fewer repairs, and to do more and better heating at the price than any that has ever been introduced to the notice of the public. The *heating capacity* of these furnaces is 20 per cent. greater than any other furnace in the market.

Money should never be enclosed in an ordinary envelop.
Valuable letters should be carried to the Post Office and registered. If Money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be registered.

Direct letters plainly to the Street and Number, as well as the Post Office, County and State. By inserting upon letters the County in which the Office is located, many errors in superscription might be detected, and mistakes in mailing avoided.

Head letters with the name of the writer's Post Office and State, Street and Number. Sign them with full name,and request that answers be directed accordingly.

All drop letters, or letters to be delivered within the city, must be prepaid by Postage Stamps at the rate of 2 cents per ½ ounce or under.

Prepayment by Stamps required on all letters to places within the United States, at the rate of 3 cents per ½ ounce or under.

Full prepayment by Stamps required on all transient printed matter, foreign and domestic.

All letters not prepaid by stamps, all such as are received in the Office with stamps cut from Stamped Envelopes, or with such Postage Stamps as were in use prior to 1861, or with Revenue Stamps on them, are treated as "unmailable," and are so sent to the Dead Letter Office.

Packages containing poisons, oils, explosive chemicals, liquids, or anything calculated to injure or endanger the safety of the mails, will not be received.

Letter Postage is to be charged on all printed matter which shall contain any manuscript writing whatever.

A letter once delivered to any one authorized to receive it, cannot be forwarded without additional postage.

CITY DELIVERY.

The public are requested to adopt the house-door letter-boxes, the use of which will result in greatly increased rapidityin the delivery of letters. Free delivery of letters by faithful Carriers will be secured by having them plainly addressed to the street and number. No necessity exists for persons calling at the office, as all may have their mail matter left at their residences regularly, without risk or charge. Four deliveries will be made daily by the Letter Carriers, beginning at 8.00 A. M., 10.30 A. M., 2.15 P. M.,and 4.30 P. M.

Transient newspapers and miscellaneous mailable matter to be prepaid by stamps. One package to one address, 1 cent per ounce, or fraction thereof.

STAMPED ENVELOPS.

The attention of the public is called to the advantages of using Stamped Envelops rather than Postage Stamps Daily. numbers of letters are dropped in the Post Office without prepayment, with Revenue Stamps and Stamps cut from Stamped Envelops affixed, which are held for postage; whereas by the use of Stamped Envelops, these letters would go forward without delay.
